Dr. Tinatin's 6 favourite ErgoX Restoration Instruments

Front-Surface
Mouth Mirror, No. 4
1504F

5505G
5 Instrument Ergotray,
180x85x25mm, Grey

As a dental practitioner and educator, I have used ErgoDento instruments in my clinical practice and during selected hands-on training courses for dental professionals. In my experience, the instruments have demonstrated good quality, precision, and ergonomic design, which have been helpful in both clinical and educational settings. I have appreciated the consistency of these instruments while performing procedures and demonstrating techniques during training activities. I have generally found them to be reliable and well suited to the tasks for which I have used them. Based on my experience, ErgoDento instruments may be worth considering for dental professionals who are evaluating options that meet their clinical and educational needs.

“

I have been using instruments from ErgoDenta for some time and am very satisfied with the quality. We are especially pleased with the ErgoRazor series. The instruments offer solid quality at a reasonable price, and I warmly recommend ErgoDenta.
